

Stopping telemarketing on the phone has been wonderful. I no longer come home from work and have 20 or more unavailables on my caller ID box. Can you imagine how my Dog feels, putting up with the phone ringing all day? Can't even get any sleep!! What really makes a difference though, is that my 82 year old Mother, who is trying to keep living at home, does not have to try to get up and answer the phone. She has had several medical problems and can hardly walk.
